

# Locker Room Bench Tops

European Birch

## Product Description

Wood Welded® Locker Benches are manufactured in Europe to our exacting specifications. Constructed of European birch, these benches feature durable, edge-grain lamination using a PVA glue. This glue allows for expansion/contraction of the lamination joints, lending the necessary flexibility to endure a locker room environment. They are finished with a UV light-cured urethane, an extremely hard finish that will stand up to the rigors of a busy locker room. The finish is below the reporting threshold for VOC emissions.

### Locker Room Bench Top Sizes

Measurements are in inches.

These benches come in many standard sizes ready for modification on site.

Length	Depth	Thickness
36	9-1/2	1-1/4
