

# Locker Room Bench Tops

## Northern Hard Maple

Made in the USA with Hard Maple harvested from US forests

### Product Description

Wood Welded® Locker Benches are manufactured by Bally Block Co. in Bally PA.. Constructed of Northern Hard Maple, these benches feature durable, edge-grain lamination using a PVA glue. This glue allows for expansion/contraction of the lamination joints, lending the necessary flexibility to endure a locker room environment. They are finished with Durakryl 102 a UV light-cured urethane. It is an extremely hard finish that will stand up to the rigors of a busy locker room. The finish is below the reporting threshold for VOC emissions.

### Locker Room Bench Top Sizes
